Please share the attached flyer with your student and chaperones. Handwashing is one of the most important ways to prevent the spread of germs after visiting animal areas. We encourage everyone to wash their hands thoroughly with soap and water after spending time in the barn area and before eating or drinking.

Thank you for helping us keep our fair guests healthy and safe!

Know that animals carry germs that can make people sick

Never eat, drink, or put things into your mouth in animal areas

Older adults, pregnant women, and young children should be extra careful around animals
